Vagrant Checks In At City Jail With A Banjo On His Knee

"That boy wanted music," commented an Upland Police officer Tuesday as members of the department studied a hand-made, six-string banjo, constructed of crude materials by a guest at the Upland city jail.

Oswald Richard Sersey, 44-year-old Negro of Bakersfield, was held in the local jail for two days on a charge by the Sheriff's department of vagrancy in the Cucamonga district. The defendant was transferred to county jail Tuesday to serve a 30 day sentence.

When he checked into the local jail, among his personal possessions deposited with Sgt. Fred C. Strohte was the hand made banjo. Chief Ralph H. Palmer said the banjo was well constructed, and could be tuned, despite its hand construction from orange crate wood. He said the bass strings were made of piano wire wrapped with small copper wire. Other strings on the unique instrument were of other fine wire. Chief Palmer said it appeared a knife had been used in cutting the wood for the banjo, and a rock used for hammering.

Students Rule At UC Friday

Student Day is a new feature at Upland college, to be inaugurated Friday when the students "take over" in a program sponsored by the Student senate. The Student Day program allows students to assume both teaching and administrative positions for a day.

New this year on the UC campus, the idea has resulted in a number of elections to fill available positions. In the administrative area the offices will be filled by persons elected by the Student senate while teachers will be elected from each class.

Object of the unusual approach is to provide the students with a working knowledge of their college environment. This approach is designed to aid in the practical development of the individual, according to Dr. Henry G. Brubaker, college president.

Elected to administrative positions are the following students: Myron Mann, president; Ernest Frisius, dean; Paul Boyer, registrar; Hubert Stern, business manager; Luke Little, dean of students; Kenneth Asper, Academy principal; Paul Trautwein, director of public relations; Jennie Brechbill, religious director, and Verla Asper, librarian.

A mock "faculty meeting" is planned for this afternoon to orient the students to their new positions. Members of the Student Senate Executive committee are excluded from participating in the program.

County Flood Control Project Near Complete

A part of the county-wide flood control project, work progresses this week on installation of a 260 foot conduit and a large galvanized culvert under Arrow highway between Thirteenth and Grove avenues.

R. N. Thomas, county foreman on the job, has used county crews and county prisoners in the work, which has been underway two weeks and will be completed in another week. Three county trucks from the Upland yard have been uitilized to haul dirt, and three county surveyors have been engaged there.

The rubble conduit with concrete floor extends for 260 feet northeast of the highway culvert. The main artery to be served by the new culvert, however, will be the Grove avenue drain, with an extension south from Foothill boulevard to the culvert, Mr. Thomas said. South of Arrow highway, any flood waters carried down the drain will join the waters of the wash here, and be emptied into Cucamonga wash.

Arrow highway was opened to traffic Sunday after being detoured for a week.

County Flood Control Culvert Installed Under Arrow

Traffic was permitted over Arrow highway, between Eleventh and Grove avenue, this week after being detoured a week while a county crew installed a galvanized culvert under the roadway for a county flood control project. Under the supervision of R. N. Thomas, county foreman, a crew is pictured filling in around the base of the huge culvert with soil, which is tamped down with an electric device. A concrete floor was poured for 260 feet in the ditch which extends northeast from the culvert, and this week is being completed with a rubble conduit top. The local project will be completed in another week.

Pierson Leases Local Airport Flight Service

Lenn M. Pierson is now in charge of flight operations at Cable-Claremont airport, having leased the flight services from Dewey Cable.

Long associated with Mr. Cable at the local airport, Mr. Pierson is now operating the flight operations on a lease basis. This includes charter trips, aircraft rentals and student instruction.

Mr. Cable retains control of the airport he established in 1945, operating the airport, gas and oil sales, hangar facilities and tie downs.

He previously had leased the airport cafe and the airplane maintenance work, when the airport grew to a size making the "family operation" impractical. Mr. Cable and his sons are still engaged in the airport business together, but as Mr. Cable so aptly states it, "we're increasing the size of our family."

ty Beautiful Fountain Fund

Appeal For Individual, Group Contributions

n appeal for contributions m individuals and groups for Euclid avenue fountain fund s made this week by Mrs. Dor- y Gardner, chairman of the y Beautiful committee of the amber of commerce, in a let- mailed to many Upland resi- its and organizations.

As you know the wind storm w over the huge neon signs on clid avenue at Foothill boule- d. These sign had two faults. st, between them on foggy hts there was a blind spot ere motorists tried to drive be- ving it was a street. Second, signs to a great extent hid the y view to which they called ention," Mrs. Gardner wrote.

$3,000 TO BE RAISED

The City Beautiful committee s planned a pool which will en- nce the view as well as our nmunity. . . It has been sug- sted that individuals and groups ght wish to take a personal part this community enterprise.

"We must raise $3,000 to make s improvement. We can count our Spring Garden tour on y 16th for part of this money, t must rely on individual and oup contributions for the great- portion," Mrs. Gardner explain-

SKETCH PUBLISHED

A sketch of the fountain and ol plan, which features at one end a puma sculpture, and at the other end a bear sculpture, both designed by Betty Davenport Ford of Claremont, appeared in The Upland News last February. The bases of the sculptures serve as fountains, sending fans of water towards the center of the 30 x 12 foot pool. Flanges extend from in back of the animals at such an angle that the inscription, "Euclid Avenue, Upland" can be easily read from east and west bound cars on Foothill boulevard.

Contributions for this handsome addition to Upland's famous Euclid avenue should be made out to City Beautiful Fountain fund and mailed to Mrs. Gardner.

Better Fishing Due With Warm Weather After Fair Opening

Many local sportsmen headed for the hills this past weekend, with the opening of the angling season and with three times as many trout stocked in southland streams this year.

Fair results were obtained in local streams. Best trout catches were reported at Henshaw lake, according to Rowe's Sports shop, with fair angling at Big Bear and in Cucamonga creek.

Fishing should be better this weekend with the advent of warmer weather.

Wait until the car stops before you step on or off.

Three eighth-grade students from Vina Danks junior high school, Don Morosuc, playing the trumpet, Billy Kloepfer, the piano, and Eddie Rein, the drums, gave several numbers.

The ninth grade Girls Chorus from Upland junior high school sang "Hymn to Music," "This Is My Country," "A Song of Home" and "Indian Love Call," under the direction of Elbert Warren, music supervisor.

Members of the chorus included Ruth Carlson, Judy Brown, Phyllis Collier, Pat Pilkington, Clara Lou McMakin, Jean Rohrbaugh, Jo Anne Haack, Rita Pullen and Joy Marshall. Judy Moffitt was the accompanist.

Mrs. Bruce Claflin, program chairman, introduced the entertainers.

Luncheon was served by Mrs. O. B. Thomson and her committee, including the Mesdames Leonard Collins, James E. Goodban, Seymour Lydick, Harold McCreight, Dale Stevens, George W. Kreigh, A. J. McCrea, Francis H. Rogers, Leroy Misuroca, Spencer R. Smith, Ben I. Woodward, Grace Kelly, Paul M. Young, Herman Baker, Stanley Swayne and Robert Reed.

Following luncheon and the musical program, bridge and canasta were played at 35 tables. Centering each table was a ceramic bowl filled with spring flowers, which was given as high score prize at the close of the games.

Mrs. E. A. Parker was responsible for all the decorations. An arrangement of varied colored iris highlighted the stage, and in the foyer were delphinium, snapdragons and roses in an artistic arrangement.

Mrs. Anthony Barone and Mrs. Howard Weeks were in charge of reservations, and Mrs. Neal Van Dorin, the many door prizes.

Forty-eight members and four guests attended the monthly meeting of the Mariners Yacht club of the First Presbyterian church Tuesday evening in the church social hall, and enjoyed the chicken pie dinner served by the men in honor of Mother's day. Tables were attractive with spring flowers and miniature picket fences.

The Rev. Trusten A. Hart, pastor, gave the devotions. The program included a skit, "The Lighthouse Keeper," group singing, and several selections by George Geer and Mrs. John Bane, with Mrs. Geer at the piano.

Mr. and Mrs. Carroll G. Kissick were dinner chairmen, and Mr. and Mrs. Donald Swihart had charge of the decorations.

Bridge Breakfast For Panhellenic Scholarship Fund

As a means of raising funds for a $100 scholarship, the Chaffey District Panhellenic society is giving an invitational benefit bridge breakfast Saturday morning at 10 o'clock in the Upland Woman's clubhouse.

This scholarship will be given to a member of this year's graduating class at Chaffey High school, and the award is open to both boys and girls. The only stipulation is that the winner must continue as a student at Chaffey college.

Anyone interested in trying for the scholarship is asked to contact Miss June Teitsworth, dean of girls, or Alexander McLeish of the guidance department, who will supply application blanks. The award will be announced in June.

Mrs. L. F. Crutcher, president, is general chairman of the benefit breakfast, and is assisted by the Mesdames Earald Barton, Alan Swinler, Charles MacClean, U. J. Schulz, C. L. Johnson, Jr., Robert Kelley, William Terpening and Van Natta Gregg.

Lecture on Hands For Woman's Club Members Tuesday

During her years of experience as one of America's foremost photographers, Anne Marjorie Gretchen Shriber became especially conscious of faces and hands. She indexed the various types of hands and the characteristics of their owners, and eventually concluded that hands and vocations were related. Later she studied with a scientist who evolved the science of determining vocations from the hands.

Members of the Upland Woman's club will hear a different message from Miss Shriber at their luncheon meeting Tuesday at the clubhouse on "You . . . Your Hands . . . Your Vocation." She will be presented by Mrs. Bruce Claflin, program chairman.

Mrs. Robert L. Jones, president, will preside.

Luncheon will be served at 12:30 o'clock by the May committee under the direction of Mrs. John E. Skewis and Mrs. Leslie A. Kalil, co-chairmen.

At the last meeting of the season of the Study section, at 11 o'clock, Miss Lucile McDonald, Upland librarian, will give brief reviews of a number of books which she has selected for summer reading.

Termite Feats, 'Unbelievable'

While a great many facts are known about the termites due to intensive study by well-known entomologists, many of the known achievements of this determined little animal make reading nearly as entertaining as pages direct from our best known fairy stories.

The writer personally saw termites (of the subterranean variety) start from the bottom of an elevator shaft below the first floor of a three story building and build continuous runways, known as tunnels past the first two floors through what is known as hair cracks in concrete to finally reach the third floor and food. The building was constructed of concrete and steel and even the furnishings on the first two floors were of steel. The third floor was a showroom for a wholesale carpet concern and there they were busily engaged in eating the carpeting in the display racks. Treatment was effected some thirteen years ago and only three retreats have been needed up until last year.

Others equally nearly unbelievable are of the bank building in Texas, whose vaults were imbedded in many feet of solid reinforced concrete, yet they found the way again through hair cracks and when detected, were destroying valuable records and contents of safety deposit boxes.

Equally disturbing was the attack by them on the cork insulation of the huge presses of the Pomona Progress Bulletin, and believe us, that was a tough job to control.

Make sure they are not attacking your home. We make no charge for inspections. Ask the inspector about permanent protection through our termite safety contract.

CAMERA CORNER

How many of you took an especially good snapshot during the Easter vacation that would be even better if you made enlargements of them? A good picture deserves enlarging. It's lots of fun to make them yourself and a more satisfying hobby is hard to find. Having your own dark room enables you to have the fun of making your own pictures. It's one the entire family can share.

With an enlarger, you can start making your own pictures tonight! We have several good used enlargers we can offer you at greatly reduced prices. All printing papers, chemicals and darkroom accessories are available at Wilsin's, the complete camera store. We'll be happy to help you with any darkroom problem you may have.

Take your camera along on your fishing trip this weekend and bring in your film to prove you got 'em. Also a little fish can be made to look m-u-c-h bigger in an enlargement. Good luck!

Chaffey Fair Takes Over Campus May 14-15

Many Traditional Events Planned With Extravaganza As Highlight

Chaffey Fair visitors this year will see many of the events that have become traditional over the three-decade history of this nationally-known school exhibit. Among the major features already scheduled for the May 14-15 fair, are the Fashion show, Aquacade, Future Farmer Horse show, Showmanship contest, Livestock and Horticulture exhibits, annual Student Art show, Food demonstrations, Child-care exhibits and Nursery, Agriculture judging, Public opinion poll, and of course, the gigantic and thrilling Extravaganza presented each night in Gardiner W. Spring auditorium, for which tickets will soon be on sale.

Departmental and club exhibits, however, remain the backbone of the Fair, and these will include booths and activities sponsored by a wide variety of departments, including English, agriculture, business education, social science homemaking, industrial arts, physical education, foreign languages and science.

All events of the Fair are held on the school grounds with departmental exhibits centered in the cafeteria, boys' gymnasium homemaking, industrial arts girls' gymnasium, and agriculture buildings.

Dancer, Twirler In Extravaganza

Chaffey Extravaganza, annual variety show which will be held May 14-15 in the Gardiner W. Spring auditorium, includes a large cast of more than 200 students. The theme of "Four Winds and Seven Seas," is developed in a three-act show with colorful costumes, and bright music. Many soloists appear during the program. Alayne Harris, 803 North First avenue, Upland, (left), will dance in a Pirate skit. Felita Seitz, 258 Eighth avenue, Upland, is a member of a baton-twirling trio.

500 At Public Schools Week Night Program

Public Schools week evening program attracted a record attendance of 500 persons at Upland Elemenary school auditorium on Thursday night.

The program was opened with words of welcome by Howard Morrison, master of Upland Masonic lodge. He urged all citizens to take advantage of Public Schools week to better acquaint themselves with the schools and the work being accomplished.

Michael J. Hanna was then introduced, and called on the Rev. T. A. Hart, minister of First Presbyterian church, to deliver the invocation. Garry Moore, of Upland Boy Scout Troop 8, led the audience in the pledge of allegiance. Following the pledge to the flag, the Star Spangled Banner was played by the Upland Junior High school orchestra.

As chairman of the observance for the Masonic lodge, Mr. Hanna spoke on the history of the event, stating its founding occurred 35 years ago due primarily to the shortage of teachers and classrooms.

Edwin P. Dean, principal of Upland Junior High school, served as master of ceremonies and stated his appreciation of the Masonic lodges for sponsoring the statewide observance of Public Schools week.

The fifth and sixth grade chorus of Sierra Vista Elementary school was applauded for its presentation of seven songs under the direction of Calvin Rainey, music instructor in the Elementary schools. Susan Dundas, a fifth grader, accompanied the chorus at the piano.

Elbert Warren, music instructor at the junior high school, directed the Junior High school orchestra and chorus in seven numbers on the program. The chorus closed the program with a choral benediction, "The Lord Bless Thee and Keep Thee." Art craft and woodcraft by the junior high school students were displayed in the school cafeteria before and after the program. Instructors in charge of the exhibits were Miss Marjorie Pleasant and Wallace Randleman.

UPLAND SIRENS

Upland Sirens are holding their monthly meeting this evening at 8 o'clock at the home of Mrs. Howard C. Paulin, 578 North Campus avenue. Mrs. Leon Lamphear is assisting hostess.

Fire Chief Warns Of Fire Threat With Warm Weather Here

With warm weather drying the heavy growth of weeds on vacant property in Upland, Fire Chief Howard C. Paulin today urged Uplanders to take every precaution to prevent the spread of fire from incinerators and open fires.

Sunday afternoon the Fire department answered a still alarm on the west side of Campus avenue, north of Sonora camp, where a fire had spread from burning trash and weeds on a vacant lot. The fire had been extinguished before the arrival of the firemen.

Saturday morning, the department stood by at an auto-truck accident on the south side of Foothill boulevard, east of Benson avenue. A motor fire was squelched with a fire extinguisher by Lt. John A. Wessely of Upland Police department, so no fire department equipment was used.

Young GOP Club Hears Barrett

A crowd of approximately 50 persons attended the Thursday night meeting of Chaffey Young Republicans at Ontario YMCA to hear Martin K. Barrett, Yucaipa, candidate for the Republican nomination for Congress from the 27th district, and Ray W. Ferguson, Ontario, candidate for the Republican nomination for Assembly from the 72nd district.

At a brief business meeting following the appearance of the two speakers, who were introduced by Program Chairman Richard C. DuVall, the Young Republicans voted to endorse Mr. Barrett as the Republican candidate for Congress. The group previously endorsed Mr. Ferguson's candidacy.

Refreshments were served at the conclusfon of the meeting with Mrs. Mrs. Walter E. Stewart, 243 West Eleventh street, as hostess of the evening.

In addressing the assemblage, Mr. Barrett listed the three tenants on which his campaign is based. As outlined, they are (1) a pledge of full support for President Eisenhower's program, (2) the incumbent is not supporting the president's program, and (3), that the 27th district cannot be properly represented in Washington by a Democrat in a Republican administration.

Mr. Ferguson clarified the area comprising the 72nd district by utilizing a large map. He then showed his distinctive colored slides taken at the state capitol building in Sacramento.

A 25-gallon glass fish tank will emphasize the damage done to wild life, and the entire booth will be dominated by the winning slogan in the recent conservation slogan contest.

Gene Nisbet For Assemblyman — A New County Assessor Is Needed

* * *

Election of an assemblyman from the 72nd district is one of the many important matters facing people of this area in the June primaries.

Two men, who have gained prominence in the area, Upland Mayor Eugene G. Nisbet and Ray W. Ferguson of Ontario, are the principal contenders with Wendell V. Harris, Fontana and John J. Leary, San Bernardino, also candidates.

Mayor Nisbet is a Democrat and Mr. Ferguson a Republican, and the party label makes a difference only to the very partisan voter. Mr. Harris is a Republican and Mr. Leary is a staunch democrat.

While this is a Republican community, all Republicans will not vote the "ticket", but select the "man." That being the case, the current race for assemblyman is wide open, and the voters will decide largely on the basis of ability, rather than on political affiliation.

Mayor Nisbet is popular here in his own community and is widely known in the Chaffey district due to his long-time residence here and due to his 12-year leadership of the local municipal government. He is a graduate of Chaffey high school, a former Stanford university student, citrus grower, a student of governmental problems and well versed in legislative procedures. An able speaker, Mr. Nisbet is regarded as one of the finest presiding officers the Upland city government has ever had.

All of which adds up to the fact that Mayor Nisbet is a very good candidate for advancement in governmental responsibility.

Many people will question his conservative attitude relative to community development and his firm insistence on the observance of the highest standards in city planning and building. On the other hand, there is strong merit in a conservative program in handling public problems. There are, it seems, plenty of "liberals" in managing public funds and in administration of our political affairs.

As to Mr. Ferguson, he has made a very fast climb into the political picture. This may be due to people recognizing qualities of outstanding leadership. It is very evident he makes his presence felt. His beaming personality, his confident manner and positive action have won him many followers. Mr. Ferguson is the leader of the younger group of Republicans in the Chaffey district and he has gained a position in the state-wide organization of the group.

Younger than his chief adversary, Mr. Ferguson has not enjoyed the business and leadership experience of Mr. Nisbet. All in all, he has capabilities that are outstanding and he deserves consideration by voters of the district.

By nature, we are not inclined to emphatically "tell" people how to vote. Rather, we seek to fairly present the qualities of the major candidates and to recognize the abilities of the voters in deciding whom should be their governmental representatives.

We are frequently asked about candidates for various positions, however. When we are asked, we usually give an answer.

One observer pointedly asked us the other day: "Who would you rather have as manager of your affairs, Mr. Nisbet or Mr. Ferguson?"

An assemblyman at Sacramento is not manager of anyone's affairs. He is a representative of all the people, the judge of what is best for his constituents and his district.

The same general basis one would use in selecting a key employe or his own personal representative, might be used in choosing a public representative.

Our choice for our representative in Sacramento is Mr. Nisbet.

Several important contests are scheduled in June for heads of the county departments. One of the most important is that of county assessor.

Incumbent Max Cranmer, head of the department for many years, has served during the period of tremendous growth in population and tremendous changes in property valuations. This era of change continues. The assessor's position will be more important than ever.

Personally, Mr. Cranmer is very likeable and he is among the best vote-getters in the courthouse.

As head of the grand jury committee studying the assessor's office last year, it was our privilege to become acquainted with Mr. Cranmer and some of his staff, and the operation of the department.

Based on what we learned and observed, we cannot recommend his reelection.

His opponent is Melvin L. Pierson of Colton. A young man, Mr. Pierson has the big disadvantage of being unknown. His ability, however, merits favorable consideration. He is a member of the Colton planning commission and "planning director" for that city. His business is that of a property appraiser and realtor. He knows accounting procedures and office management.

We are certain he would give a fresh, modern and efficient approach, looking to a more thorough administration of this expanding department. Mr. Pierson is making a thorough study of ways and means of improving the management of the personnel, better coordinating the work of the many deputy assessors throughout the county and of an economical administration.

While Mr. Pierson has had no job equal to that of county assessor, we are certain a change is needed, and we are confident the new candidate would justify the confidence placed in him.

An "A.A." Member Speaks

"Unlike many others I did not take my first drink until I was 31 years of age," an Upland resident told us the other day. He was busy at his present job but for the moment his mind turned back and reviewed one of those horrible experiences of an alcoholic.

Alcoholics Anonymous was the agency that resulted in his revolution from a drunkard back to a constructive role in the community.

"I was born and reared in a New England city," he continued as he willingly unfolded his story. We knew of his very fine work today and of his many activities in trying to help other drunkards. "I was just the average boy with all the ambitions and hopes of all kids. After school I wanted to become a success in my chosen field and I was on the road to fulfill that desire until I took my first drink.

"For a few short months I was a social or controlled drinker and my drinking did not give me any trouble." He paused in his work and talked with his foreman. He was in a busy plant and there was much activity about. "That controlled drinking soon became compulsive drinking, and that is when my life became unmanageable.

"One doesn't become an alcoholic overnight, so I did acquire a home, a wife and son. Also, I was respected in my home town where I conducted a small business, was secretary of the chamber of commerce and active in civic affairs.

"But my continual drinking soon became known to my business associates and friends soon began to avoid me. My finances and credit were soon exhausted. It soon came to the point where liquor was necessary to me every day. I would lie, cheat and steal to get money for liquor.

"Finally, not being able to face my creditors, friends or family, I stole money and disappeared. As soon as my stolen funds were gone I hit 'skid row.' The next 12 years I spent in flop houses, missions, jungles and skid rows all over the United States. I have a police record in eight states. In addition I have served two sentences on the Georgia chain gangs, all caused by drinking and vagrancy.

"In a psychopathic ward of a midwestern city hospital a doctor gave me the choice of one year in the state insane asylum, or my investigation of Alcoholics Anonymous.

"On January 20, 1947, I attended an A. A. meeting and listened to the experiences of other men afflicted with my disease.

"They told me that alcoholism was not a sin but a disease. They did not ask me to sign any pledge or accept any religion. They told me that I could enjoy the sobriety that they had known since joining A.A. The only requirement I needed to become a member of A.A. was a sincere desire to stop drinking.

"I continued to attend A.A. meetings and now I have more than seven years of uninterrupted sobriety."

The local person who spoke so freely of his past and of what A.A. has done for him, urged other interested local people to contact the Ontario-Upland A.A. organization.

Population Increase And The Big Need For 22 Million New Jobs

Our population in 1975 should be around 200 million or more persons, the census experts say. This is a prediction that warrants sober thought and planning.

Huge populations are a liability rather than an asset if they are non-productive and without equipment or resources. That is where capital comes into the picture, the expert points out --- capital goods and equipment on a large scale.

The 1975 labor force is expected to be around 88 million --- a third larger than today. Jobs necessarily must be created for 22 million new workers, most of them in business and industry. Behind the average job in America today there is a $12,000 investment. This means we will need around 264 billion dollars of new investment by 1975 to provide equally productive jobs for the increased work force.

So here's the 264-billion dollar question: "Will government costs and taxes be cut enough to permit and encourage the saving and investment needed for the future?"

That is a fervent hope for the benefit of the goal to be won and the generations to come.

20,000 Miles of Cars

If you think the California highways are getting crowded you can find some justification for your opinion by looking at automobile statistics --- as well as at the automobiles.

Paul Mason, state director of motor vehicles, reports that more than six million cars and trucks were rolling around California in 1953. According to our calculations (not guaranteed) these six million vehicles, if lined up bumper to bumper, would cover a distance of more than 20,000 miles. They would also make a solid line of about 50 cars abreast stretching from San Francisco to Los Angeles.

Sometimes in going to a football game --- or just to get caught in the 5 o'clock rush --- the line seems that long and that wide.

Business men who are too modest to toot their own horns will not be long in business.

A cat may have nine lives, when on the highway, remember you are not a cat.

There's one way of being sure to live a long life—just be somebody's wealthy uncle.

Don't part with your illusions. When they are gone you may still exist but you have ceased to live.—Mark Twain.

Education—a debt due from present to future generations.—George Peabody.

Manners—the final and perfect flower of noble character.—William Winter.

Lions Discuss Church Role

Place of the church in the community, its failure and opportunities were frankly discussed in a quiz type program at the meeting of the Upland Lions club by the Rev. Paul Goering and the Rev. Joseph A. Erickson, Jr. The meeting was held Thursday in the Upland Woman's clubhouse, with the two Lions conducting the program.

For purposes of the question and answer period, the Rev. Mr. Goering posed as the "Lord's Helper," and the Rev. Mr. Erickson was a "pagan." Later, the roles were reversed.

"The church is for prayer, inspiration and action," was one declaration. 'It is a place where people come together to offer themselves to God, to get strength and results. The church is interested in affairs of the community and it is willing to fight for a cause."

The Rev. Goering is minister of First Mennonite church and the Rev. Erickson is rector of St. Mark's Episcopal church. Norman S. Lawson was program chairman. President Joe Seitz was in charge of the meeting. Among the guests were Robert Bucheneau, Red Hill, a member of the Cucamonga Lions club; Mel Pierson, Colton, who is candidate for county assessor, and Col. C. E. Peterson, Ontario, candidate for the county board of supervisors.

Mother

By Ernest A. Dart

Many years have passed away,
Since I knelt at Mother's knee;
Through all the changing scene of life,
Mother's prayer has followed me.

Mother was patient and thoughful
Kind, loving and true;
Ready to lend a helping hand,
If I was happy, or if I was blue.

Sometimes I have wandered away
From the pattern she wove for me;
But in my thoughtful moments
Her smiling face I see.

Then very early in my life,
Came that fateful day,
When Mother heard the summons
And peacefully slipped away.

For one so dear and thoughtful,
No fitting tribute could I pay,
Except to follow her steadfast lead,
And do my best each day.

I hope as I grow older,
My life will show each day,
Some of the joys and pleasures,
I learned my Mother's way.

Today is Mother's special day,
We honor Mothers everywhere.
Many of the noble things of life,
Spring from Mother's love and care.

May Open School Bids Next Month

As far east as Etiwanda, north to Mt. Baldy, west to Monte Vista, and south to the Ramona freeway, are the tentative boundaries for the area to be served by the new Upland High school, scheduled for opening in September, 1955.

Alexander McLeish, principal designate for the school, outlined this tentative area of the Chaffey Union High school district to be served by the new school as he spoke to the near-capacity crowd of more than 500 persons at the Public Schools week evening program Thursday in Upland Elementary school auditorium.

LEARNING PROGRAM

Mr. McLeish also outlined the accomplishments the school expects of its students on graduation. He also explained the merits of the plan whereby fast and slow learning pupils are segregated, and spoke of the school's testing program. Seven courses of study a student may follow in the high schools of the Chaffey district were reported by Mr. McLeish, who concluded by urging a year around positive approach in thinking regarding the public schools as much as during Public Schools week.

Daniel B. Milliken, superintendent of Chaffey Union High school district, was the second speaker of the evening. Discussing the physical structure of the new high school Mr. Milliken announced the board of trustees hopes to open bids in June, with construction to begin immediately after the bids are awarded. Plans are now in the hands of the state department of school architects and the receipt of bids in pending final approval by the state officials.

POSSIBLE 1,000 STUDENTS

No estimate has been made of the possible enrollment at the new high school, which will have facilities to handle 1200 pupils when it opens, but possibly 900 to 1,000 pupils will be enrolled with its opening, Mr. Milliken stated. He said the school plant will be only 50% complete when it opens. He utilized an irridescent diagram of the campus master plan to show the audience the physical plan of the school, indicating what buildings will be the initial school unit construction and those planned for later development. He was assisted by Ernest W. Fischer, assistant superintendent of the Chaffey district.

50 In Chaffey Americanization Classes Here

enrolled in four classes in Americanization and English for foreigners in the Chaffey district, according to the report of Olof E. Snyder, director of adult education. The age span in the classes is from 25 to 60 years. Twelve members of the groups have passed their examinations for United States citizenship for the 1953-54 school year. Many more are preparing for examinations as soon as possible.

The Americanization class at Los Olivos Community house in Upland has 50 students. This is taught by Philip Rue of Fontana high school. The group is divided into two sections, as ten of the members have little English training.

The Ontario Americanization class is taught by Glenn Fisher of Chaffey High school. This has 25 students.

The Americanization class in Fontana has 20 students. This class is also taught by Rue, who has the fourth class in English for foreigners at the Work Camp on West Fifth street. At this Camp, he is instructing 25 Mexican Nationals, none of whom have much skill in the English language.

Seven Homes Added At Alta Loma Ranchos

With 17 of the 22 homes on Garnet street sold, Alta Loma Ranchos are this week expanding south of Baseline, with seven new homes under construction on Lime street.

The project, composed of homes completed on the exterior but with interior work to be completed by the buyer, are located off Baseline, two miles east of Upland, in Alta Loma.

One of the seven new homes on Lime street was sold even before ground was broken for the new construction. Mr. and Mrs. Milton J. Hill, who moved to Pomona from Albuquerque, New Mexico, three months ago, purchased the home.

A. E. Malone, 26 East Arrow highway, is sales representative for Alta Loma Ranchos. He said of the 17 homes on Garnet street sold, most are now owner occupied. The seven new homes are located one block east of Garnet and south of Baseline, on the property formerly owned by John Schmutz. The Alta Loma Lions club park is adjacent to the new project.

It takes longer to report an accident than to prevent one.

Seek Youth For Injury To Boy

Upland Police department is seeking information concerning a local boy, about 15 years of age, who struck 10-year-old Terry Strohm on the head with sufficient force Thursday evening to require three surgical stitches in his scalp.

Sgt. O. W. Owen was assigned to investigate the incident after William A. Strohm, 873 Eleventh avenue, father of the injured youth, reported the malicious mischief.

According to the story told by Terry, and two playmates, Michael and Jackie McCarthy, they were playing in Upland Memorial park when the older boy rode up on a bicycle, said something to them, and then while Terry wasn't looking, struck him on the head with an unknown instrument. The youth was taken to Kaiser Fontana hospital where the stitches in his scalp were taken.

Legion Considering Change In Site Of Club House

Fund raising programs for a new building were discussed by members of the Executive committee, Upland American Legion post, at its April 27th meeting in the home of Adjutant Donald I. Ricci.

A committee will also be appointed to investigate the feasibility of securing a new location for the club house and erection of an entirely new building, in preference to expanding at the present location on East Arrow highway.

Purchase of an addressing machine now in use and use of a printed Legion activity report sheet were also recommended by the committee.

A "One-Eyed" driver is a menace to safe driving.

Some of his most recent assignments concern remodeling of interiors, including bathrooms and kitchens. Mr. and Mrs. Van Sant reside at 365 Verdugo way.

Sleeping Driver Unhurt In Crash

Allen Francis Gooder, Ontario, emerged unscathed from his auto after falling asleep while driving south on Euclid avenue and crashing into an entrance driveway pillar.

The one car accident occurred about 2:00 a.m. Sunday, when the car ran off the avenue, striking the south pillar of the entrance to the driveway at 1561 North Euclid avenue. The auto continued on south in the west parkway before stopping.

Mr. and Mrs. Charles L. Dinger, 550 West Sixteenth street, returned home last week from an enjoyable three-week motor vacation trip which took them to St. Petersburg, Florida, where they visited Mrs. Dinger's brother and sister-in-law, Mr. and Mrs. F. C. Trimble. They also stopped for a short visit with their granddaughter and her husband, Pvt. and Mrs. John McComsky, at Fort McClellan, Anniston, Alabama.

Highlighting the afternoon was a musical program in the auditorium, with 125 parents in attendance. Accompanied by Susan Dundas at the piano, the fifth and sixth grade choir sang 10 numbers through the program.

An exhibition of square dancing was given by the sixth grade; the third grade rhythm band gave two numbers; piano solos were given by Kenny Smith and Stanley Bonillas; accordion selections by Ronald Erick, Janice Komp, Bob Leavitt and Arturo Perez; a trumpet duet by Michael Wise and Jimmie Kelber; violin and accordion solos by Nancy and Tom Schulz; and a ballet dance by Jan Christen.

Story, Poems of Naida Dickson Published

Naida Dickson, 744 East Ninth street, is represented by a story in the current issue of Story-A-Day, the children's weekly magazine. Mrs. Dickson, well-known Upland poetess, is now gaining recognition as an author.

"Mr. Probably and His Friends Go Picnicking," is the title of Mrs. Dickson's current story in Story-A-Day magazine. This is her first story not in verse published. A second story has been accepted for publication by Grade Teacher magazine.

A great amount of the local woman's poems are currently appearing in various publications. From October through the June issues of Instructor Magazine, poems by Mrs. Dickson have been featured, excepting only the May issue. Two poems, one the frontispiece, are in the April issue, and the June issue will publish two of her poems in the poetry section, one under the pseudonym of Grace Lee Richardson.

Child Life magazine will devote an entire page of its September issue to a poem by Mrs. Dickson. Poems, jingles and even a dot puzzle by the local poetess are currently appearing regularly in Wee Wisdom.

The wife of Eugene Dickson, the local writer is the mother of twin sons, Charles and Clarence, 9. Mr. Dickson is employed by the Chaffey School district and Mrs. Dickson is a substitute teacher for the Upland and Ontario schools. She received her Masters degree from Utah State Agricultural college at Logan.

Alta Loma Youths Win Saturday In In Horsemanship

Susan Smith, daughter of Mr. and Mrs. Melvin W. Smith, 9385 Nineteenth street, Alta Loma, received the first place ribbon and trophy in the horsemanship contest Saturday morning for pupils of E. B. Green, Chino, who had taken 12 or more lessons.

In order to qualify for the trophy, a rider had to be able to walk, trot and canter his horse. He also had to do the three basic turns, the center, forehand and haunches.

Each child in competition also had to ride both English and Western style, showing not only how good the rider was, but that in such a short time with patience and understanding a child can become almost an expert rider.

Second ribbon went to Nancy Arbuthnot of Claremont, and the third place ribbon was won by Eileen Smith, sister of the outstanding rider.

Raleigh White, son of Mr. and Mrs. H. O. White, 5117 Sapphire, Alta Loma, received fourth place ribbon.

Student librarians at Upland Junior High school this week are Carol Bennett, John Cantele, Cheril and Joyce VanGraafeiland.

Dog Wounded By Officer After Boy Bitten

Impounded Friday and being held in quarantine until May 10 is an Upland collie dog which reportedly bit a small boy and later was shot in the foot by a police officer threatened as he investigated the dog bite complaint.

Mrs. Don Paulson, 533 North Third avenue, reported Friday morning that a large collie had bitten her son, Donnie, 6, as he was eating a piece of bread and butter in the front yard of his home. She reported the dog bit the youth on the left arm and leg, with the dog's teeth tearing the front of the boy's jacket and penetrating his overalls, and breaking the skin on the leg injury and bruising both arm and leg.

OFFICER FIRES SHOT

Friday afternoon a neighbor called to report the dog in her back yard, but when Sgt. Harlan J. Jackson and Officer Thomas C. Davis arrived on the scene, the dog was gone. It was learned then the dog was owned by Richard L. Brown, 333 North Third avenue.

At the Brown home the officers were greeted by Mrs. Paul Morris and Judy Brown. As they answered the officers' knock on the front door, the collie ran out behind them, barking and growling. Officer Davis reported the dog charged him, forcing him to step backward until he was stopped by a yard fence on the north. Warding off the dog with his blackjack, Officer Davis said he drew his gun and fired a shot meant to frighten the dog, but at this time the dog lunged forward and the bullet struck his left front fore-leg.

IDENTIFIED BY BOY

Retreating to the rear of the home, the dog was later muzzled by Dr. W. J. Kelber of Ontario, The officers then moved the dog to the Kelber animal hospital for rabies quarantine. The dog was identified by Donnie Paulson as the dog which attacked him.

According to the report on file at Upland police department, the same dog previously charged Sgt. Jackson at the police station and Officer Joseph Blouin while the latter was on foot patrol in the alley west of the Brown home.
